Introduction About Me:	<p>I went into Nurses training straight from GCSE. I have thoroughly enjoyed being a nurse, caring for those in need. It was always a pleasure and satisfying to see patients healed and walking out of the hospital ward.</p> <p>It was also heartbreaking to look after people who were well enough to be in their own homes but because they required personal help and there weren't enough home care providers they stayed in hospital.</p> <p>So it is a great pleasure to use my knowledge, skills, experience and competence in providing a home care service that is safe, efficient and well organized.</p>
